

July 23, 2020

Dear campers, guests, volunteers coming to FLBC!

We are excited to welcome you, and have FLBC be your home for the time we are blessed to have you join us this summer.

Things are continuing to change in Montana, including health regulations, due to Covid-19. When you arrive at camp, please have all your forms (pre-screen, waivers, etc.) signed and dated. If you are with a group, please include your group name on each form. Once all forms are accounted for, temperatures recorded, you will be able to proceed into the camp.

Initially we were able to allow guests to come and go during their time at camp, and this is what we advertised. With the increase of cases in Montana and the Flathead Valley and a new July 15<sup>th</sup> state-wide mask mandate, our health department recommended to us, that once people come onto the site, that they remain on FLBC property during the duration of their stay. We are blessed to have great hiking, boating, and other great activities right on our site (sorry no golf courses, but we hope to have disc golf someday!). Some campers have re-scheduled their outings for after departure from FLBC.

If you have to leave the camp, or have made prior plans to do so, and cannot change your plans, our health department asks that you do not go to stores, restaurants, or public events at any time, and that a mask be worn at all times. When you return to camp, we will have you go through the check-in procedure again, so that we have the most updated temperature for you.

I am so sorry for all the changes. We are navigating this in partnership with advisors and our local health department to keep our staff and all campers safe.

We are praying for your health, safety, and spiritual growth, while you are here at FLBC in Gods great outdoors. Thank you for your participation and support!

Sincerely,

A handwritten signature in cursive script that reads "Margie P. Fiedler".
